Consistently Serving the Great North Tahoe-Truckee Recreational Area Since 1869

Voters Give Bonds Huge Majority In Sanitary Election

Voters of the annexed portion of the Truckee Sanitary District went to the polls Tuesday to give overwhelming approval to a $600,000 bond issue to provide the first phase of a sewer system to serve the Donner Lake, Meadow Park and Donner Trail subdivision.

While only 186 of nearly 500 qualified voters in the area went to the polls, 160 of those voted yes and only 26 no to give an 86 per cent margin to the proposition.

The directors of the district anticipate a grant from the federal government of $161,000 to be used with the $600,000 from bonds to construct the main disposal line from the east border of the annexed area west of Truckee to the plant just east of the main part of town.

It is expected that to provide service in the various communities in the annexed area special assessment districts will be formed to raise funds to construct service lines to connect with the main line to be built with the $761,000 available from sale of the bonds and the federal subsidy.

Oliver Crose, clerk of the district, said that the directors are still considering an invitation to cooperate with the two North Lake Tahoe utility districts in forming a super agency which would provide a sewer system to handle all of North Tahoe as well as Truckee and Donner. A decision is expected shortly but in any event future action will not have any effect on the funds now available, Crose declared.

It is the goal of the local Jaycees to register, and re-register when necessary, all eligible voters in the entire community during the next two months. Plans for the campaign were formulated at the recent Junior Chamber meeting.

A house-to-house canvass will commence with the arrival of the necessary registration materials from the county clerk and deputization of all members of the committee.

Subdivision Map Is Approved By Board

The Nevada County Board of Supervisors last Thursday approved and signed the Deerfield subdivision map but denied an application by H. C. Hall of the Donner Pines tract for a variance.

Hall had asked for a five-foot setback instead of the 20 feet permitted for a garage. The supervisors, after some discussion, objected to the steady stream of variance requests and denied the application.

Help Needed to Complete Project

Passage of the hospital bond election next Tuesday will assure continuation of the project above designed to double the capacity and bring facilities vitally necessary to the Tahoe Forest Hospital. Failure to pass the issue may halt the work before completion and deny the district one of its most important assets.

Voters Will Decide On Completion Of Hospital At District Election Tuesday

If work on the Tahoe Forest Hospital is to continue, bringing that facility to the required standards, two-thirds of the voters in the hospital district going to the polls next Tuesday must cast a "yes" vote.

When plans for the expansion of the hospital were initially made, the directors were advised that $1,150,000 would provide for all contingencies and gave the hospital more than double capacity, meeting all the rigid requirements set by the joint commission of accreditation for hospitals and provide for modernization of the existing institution.

A tentative promise was made that a foundation would provide the necessary equipment.

This promise failed to materialize and it was discovered, too late, that the bond sale would not finance the building because of advanced costs of labor and materials.

It is pointed out that costs will continue to advance and that unless the bonds are voted Tuesday it may be necessary to ask for even more in the future.

The $600,000 required to finish the expansion and modernize the present facility is declared a bare minimum and will provide the district with a fully accredited hospital but without frills or unnecessary expenditures. To protect the initial investment, a yes vote is needed, officials declare.

Directors of both the Truckee and North Lake Tahoe Chambers of Commerce yesterday unanimously went on record favoring passage of the hospital bond issue at Tuesday's election.

Added Services Are Provided Voters At Hospital Election

Members of the Tahoe Forest Hospital staff and volunteers have been out canvassing the area to explain the issue to the voters of the community. The hospital auxiliary members have been out in force to alert the maximum number of voters of the importance of this crucial election.

Extra telephones have been installed at the hospital to accommodate voters in the district in event they don't have their own transportation or babysitters available.

These phones will be staffed for all 12 voting hours on Tuesday. When a phone call is received at the hospital, the auxiliary members in that particular area are called, and will take care of voters immediately.

As in all bond elections, a two-third majority is necessary to carry the issue, and it is therefore more important than ever to get as many voters to the polls as possible.

Accused Attacker Released, Arrested

ABURN—Bert Lee Reinhardt, 21, of Salinas was rearrested on a charge of forcible rape only minutes after Judicial District Judge George Yonehiro dismissed a similar charge against him.

Judge Yonehiro halted a preliminary hearing and dismissed the charge yesterday as Public Defender Fred P. Tuttle, III, was questioning Reinhardt's asserted victim, a 21 year old Truckee woman.

She had testified Reinhardt had assaulted her in her parked car near Lake Tahoe early August 6th.

Judge Yonehiro ruled her testimony failed to prove a crime had been committed. In ordering Reinhardt's rearrest, Chief Deputy District Attorney Thomas Harte argued the jurist should have allowed him a chance at redirect examination.

Harte indicated he will ask the grand jury to indict Reinhardt Thursday.

Slight Increase In Tax Rate Is Seen

The Nevada County Board of Supervisors Thursday adopted the $5,067,256 budget which will bring the basic county tax rate to $2.56, a five cent increase over the 1964-65 rate of $2.51.

The fifth supervisorial district will pay an additional 40 cents or a total of $2.98, following adoption of a road district tax to purchase snow removal equipment for the Truckee-Donner area.

The breakdown of the proposed $2.58 rate follows: general fund, $2.45; road fund, none; exploitation fund, .01; accumulative capital outlay, .01; special aviation fund, .02.

Of the entire budget figure, available financing other than tax money, will account for $3,061,-639.47 and taxes will be required to raise $1,465,886.58.

Special district taxes in this area for schools, Sierra Junior College, airport district, hospital district, park and recreation, sanitary district, fire district, etc., are expected to bring the local rate in some sections of the district to close to $8 per $100 assessed valuation, higher than the incorporated sections of the county in which city taxes are included.

Incorporation Has Setback As Lack Of Signers Found

Plans to incorporate the Truckee-Donner area into a city hit a snag last week when it was reported by county officials that insufficient signers, both from a standpoint of property owners and assessed valuation were represented on the petitions.

However, Dr. Ben King, head of the incorporation committee from the Truckee Donner Chamber of Commerce, said that action will continue to bring the issue to a vote.

According to the assessor's office, there are 3178 property owners in the district proposed for incorporation and that less than half have signed the petitions. They also indicated, Dr. King said, that 21.8 per cent of the assessed valuation is represented with a need for 25 per cent.

Dr. King indicated he would confer with the incorporation attorney, John Couzens of Auburn to check the matter more thoroughly and also to study the fact that more than half a century ago Truckee was incorporated and that this incorporation has never been cancelled.

The area incorporated does not include Donner Lake, Gateway or other developed areas and for this reason it was hoped that the wider area could be included in the city when it is formed.

It was learned that the signatures on the petitions will not become invalid and that even though additional time to complete them is required, that is th eaim of the committee.

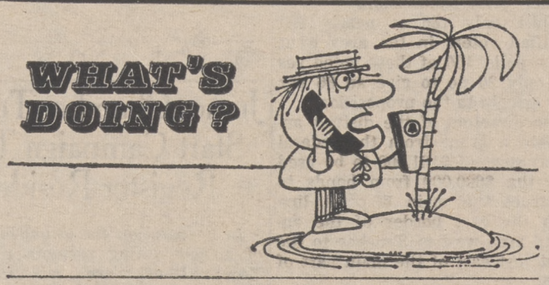
WHAT'S DOING?



Back in 1912, when this picture was taken in San Jose, our installers worked from trucks like this one. Of course our trucks have changed since then, and so has the phone service they bring you. Although, in 1912, calls still had to be placed through an operator, work had begun on dial equipment. And as phones began to be converted to the dial system, telephone people were already seeking ways to improve and expand dialing. That's why today most Californians can dial not only local calls but many long distance calls as well.

If you are hard of hearing, here's some good news. The little wheel in our new VOLUME CONTROL HANDSET can make a big difference in how well you hear on the phone. Just turn the wheel with your thumb and the voice at the other end of the line will immediately sound louder. To find out more about the handset, and aids that help you hear the telephone ring, just contact our business office.

Pacific Telephone has over 47,000,000 miles of wire in service—nearly 30 times the length of Gemini 4's 62 orbits of the earth.

I imagine you've discovered how fast and easy direct distance dialing is, but maybe you've wondered what to do if you should ever dial a wrong number out of town. Here's how to make sure you won't be charged for such a call. Just ask the person who answers for the name of his city. Then dial "0" for Operator and tell her. She'll see that you're not charged for the call.

DONNER DOINGS....

By Vi White

The thunder storms are over and it's great to see the sun again. Fog has been forming over the lake in the mornings though, when the cooler air hits the warm water, but it burns off soon and summer is here again.

* * *

Fishing has been good from the shore. Marge and Dick Thomas, their son Richard and his friend Larry Candland all of San Lorenzo are vacationing here at Donner Lake, staying in the Frank Pike cabin. They found catching a limit of 10 inch trout every day easy.

* * *

We are sorry to learn of the disappearance of Ivan and Sarildo Tofft's big red Irish setter. "Jocko" has been missing since last Friday and had just come home from the hospital. He does not have his tags, only a choke chain around his neck. He's been their constant companion for seven years and is greatly missed. Please, if anyone has any information about this lovable dog, call the Tofft's at their Donner Rancho Resort, 587-3717.

* * *

Saturday evening the three candidates for the wagon train queen were judged for horsemanship at Truckee-Donner Recreation Park outside of Truckee. George Wurst's horse Sparkplug behaved quite well while Janet Denney, sponsored by the Lions Club, Janet Randol, sponsored by the Donner Lake Resort Association and Charlene Wyrick, sponsored by Walker's Toggery, put on the saddle and bridle and rode the horse.

The girls will be riding on the Wagon Train that starts from Sierraville Thursday and ends at the recreation park Sunday. An outdoor breakfast will be cooked by the Truckee Lions Sunday. Come out and get a hearty meal and look over the camp. Hope for the photographers sake, the necessary trucks are parked away from the covered wagons and horses.

* * *

Everyone has heard the singing nuns. At Donner we have a sextette of fishing nuns who proved they had an "in" by their catches off the roadside piers. Habits flying in the breezes.

* * *

The Nevada County Fair starts today in Grass Valley—hope our Truckee-Donner Chamber of Commerce will have some pictures, etc., to show visitors what's up here at the eastern part of the county.

* * *

Members of the Tinker Belles Garden Club were almost rained out last week. Instead of their planned field trip to Crystal Peak, they avoided all the wet weather by driving down to the old mining town of Washington off hiway 20, and found sun! Dorothy Maragliano and Marilyn Danner of Donner Lake joined in the fun of gold panning, visiting the old Wells Fargo building, now a small museum, collecting rocks and enjoying the nice warm weather.

The club hopes to make the Crystal Peak trip August 31.

* * *

It's amazing to realize that up there in space two brave astronauts are circling our globe about every hour. Down here on earth, there are still too many who are flying low on the freeway hoping to enjoy a longer vacation only to end up in the hospital.

* * *

Incidentally, the additional $600,000 needed to complete the new hospital expansion project will be voted upon next Tuesday. It is too bad that the architect under-estimated the cost for the addition being built to bring the Tahoe Forest Hospital up to the minimum standards. It is a fact though, that if this work isn't completed now, it will only cost us more later on. Construction costs never seem to come down.

Some people have mentioned that tourists seem to use the hospital more than the local people, but when you realize that vacationers who use their cabins are tax payers too, it has been estimated that 75% of the patinents are local taxpayers, and surely those who are just traveling through have no intention of using the facilities except for an emergency.

A two-thirds majority is required for passage of the bond. Our hospital is a vital part of our community, let's support it. Don't forget to vote.

DEEDY & BILL NOW AT LODGE

CRYSTAL BAY—Just returned from an outstanding successful tour of east coast and Florida resorts, Deedy and Bill now share the Nevada Lodge's Topaz Room spotlight with the crowd-pleasing Vive Les Girls revue.

Now in its last three weeks at the Lodge, the Paris-created Vive Les Girls revue, produced by Frederic Apcar, has been hailed by many as the most entertaining revue to be seen this year in the Reno-Tahoe area.

Wild Deedy takes charge of the show and the audience from the moment she makes her entrance by crawling up over the stage from the pit. Things start out wild and then get wilder. Backed by friend Bill's terrific piano artistry, the duo are a comedy team that has scored mightily in many return engagements at the Lodge, North Lake Tahoe's largest year-round resort-hotel-casino. Deedy and Bill will hold fort hon the Topaz Room stage through September 12.

The Goofers with Karl Carsony follow with what is billed as a "strange and unique combination" —certainly a unique act full of fun and comedy music.

The finale of the show features the entire company supported by the orchestra under the baton of John Carleton.

Show times for the Vive Les Girls revue are 9 p. m. and midnight Monday through Sunday and 9 p. m., 11:15 p. m. and 1:30 a. m. Friday and Saturday nights, with dinner served prior to the 9 p. m. show.

Commercial fishing was permitted in Lake Tahoe until 1916.

Ladies who participated in the golf tournament at South Tahoe Monday were Norma Russell, Majel Rose, Maryanne Haswell, Liz Carroll, Barbara Zorich and Georgianna King. After the golf a luncheon and fashion show was held at the Wagon Wheel.

—o—

Many of the Ponderosa golfers will compete in the tournament at the Tahoe City course this coming weekend. The juniors will play Friday, the ladies on Saturday and the men on Sunday. A barbeque will be held Sunday evening.

—o—

Did you hear all about the second hole-in-one on the sixth hole last week?

—o—

John Besio and Mouse Frates did a fine job representing Truckee at the tournament for junior golfers at the Hidden Valley County Club in Reno last week. Both players did very well and enjoyed the festivities. The boys stayed at the home of Mr. and Mrs. Robert Bowers while in Reno.

Navy Guarantees Choice of School

The navy is now guaranteeing technical schools to young men who graduated from high school or junior college last June.

It is also possible for a young man to enlist in the Navy immediately, but delay his reporting for active duty up to 120 days.

Commander Richard Williams, officer in charge of navy recruiting for northern California, Nevada and Utah announced that young men qualifying for training as nuclear power specialists, electronics or radio specialists, and as hospital corpsmen will be, prior to enlistment, guaranteed formal schooling in the specialty of their choice.

CHANGES ARE MADE IN PARK PERSONNEL

Walter R. Johnson, state park ranger IV, who has been supervisor of the San Diego coast state beaches for the past three and one-half years, is being assigned as supervisor of Squaw Valley state recreation area. Johnson guided development of the new $900,000 public campground which will open August 21 at the South Carlsbad unit of the San Diego coast state beaches.

He will take charge at Squaw Valley state recreation area September 1, with headquarters at Squaw Valley.

Donald L. Boeff, recently promoted to state park ranger III, assistant supervisor of Mount Diablo State Park in Contra Costa County for the past two and one-years, has been assigned as assistant supervisor of Squaw Vallley state recreation area and on the job there since mid-June.

The sun's volume is 1.3 million times that of the earth.

Expansion Of Park Area Is Announced

Another 400 acres has been added to the U. S. Forest Service holdings on the floor of Blackwood Canyon, where the federal agency plans development of a major west shore recreational facility.

The 400 acre tract was acquired from J. K. Metzker of Reno in exchange for 119.74 million board feet of timber in the Yuba Pass section northwest of Sierraville, according to Charles (Chuck) Lowrie, assistant ranger of the Truckee District of the Tahoe National Forest. Metzker will harvest the timber but the forest service will retain ownership of the ground.

Prime fishing is provided by Blackwood Creek, which flows through the newly acquired tract, according to the district ranger. The considerable creek frontage also included an "excellent potential spawning ground" for trout, he added.

The 400 acres involved in the exchange will complement the 761 acres in Blackood Canyon that were obtained in the 1964 Denney Exchange; the 40-acre Rempfer and 60-acre Truckee School District exchanges of earlier this year; and the 1960 Kaspian Exchange, which is the basis for the development of the Blackwood Canyon area, according to Lowrie.

The Kaspian Exchange tract forms the nucleus from which the planned recreational area, with modern campground facilities, hiking and riding trails to be developed on the 1,367 acres of canyon floor land now in Forest Service ownership.

A west shore Tahoe swimming beach and 15-unit picnic facility presently is being operated on the Kaspian Exchange tract.

NO DEFROSTING EVER
With a Modern Electric
REFRIGERATOR FREEZER

That's one of the most exciting features you'll find in modern electric refrigerator-freezers — NO DEFROSTING.

It means exactly that, NO DEFROSTING, ever, in both the spacious refrigerator and zero temperature freezer sections. No more chopping away at stubborn hunks of ice, no more messy dripping on the floor.

And talk about plenty of space! Here's a regular supermarket in your kitchen! A modern electric refrigerator-freezer is bigger inside but not outside. A typical 12-cubic-foot model fits in the same floor space as an old fashioned 8-foot refrigerator. New-look square styling also saves space — it fits flush against the cabinets at both sides just as if it were custom designed for your kitchen.

Of course with all this space available you can cut hours from your weekly shopping time. You can stock up for days ahead. Save even more time, too, by cooking and freezing entire meals ahead of time.

Modern electric refrigerator-freezers contain such features as climate-controlled dairy compartments that keep butter and cheese just right for spreading, vegetable crispers to keep vegetables fresh and tasty, fresh meat compartments that keep meats store fresh a whole week without freezing.

Then there are frozen juice dispensers, swingout or slide-out shelves and food drawers, deep storage doors that hold big soft drink bottles and half gallons of milk, shallow, easy-reach shelves for eggs, baby foods, vitamins — all these are just a few of the really wonderful new conveniences that can be yours when you own a modern electric refrigerator-freezer.

Larry and Rose Hargrave of Reno, former Kings Beach residents, have received word from Rose's son, John McClure that he has been returned to North Caroline from San Domingo for dental work. He received two medals for service—one for the armed forces expeditionary services and one which he didn't identify for them. However, Johnny was under fire for over 72 hours and he leaves much to speculation as to what he underwent.

Stopping in at the Riverside one day last week we saw Helen Monek former Crystal Bay resident. Helen is now living in Reno and working at the Riverside.

Perc and Franchon Waters of Carnelian Bay have returned home after attending a family reunion at Los Angeles of the Waters family. Perc's mother came out from Illinois for a visit which instigated the reunion.

Proud grandmother is Grace Bowman former North Shore resident. The Fusons have another son, four year old Timmy. Dale was a student at Tahoe Truckee High School at Truckee. Congratulations!

The Mt. Rose road has been reopened after the flash floods closed it at Galena Creek and at Third Creek above Incline Village. Lois Watson of Incline Village enplaned to Bakersfield to attend the wedding of her nephew Larry Jamison, son of sister Virginia and Carter Jamison on August 14. Lois sister, Dorothy Theroux of Port Orchard, Oregon, met her in San Francisco and accompanied her to Bakersfield.

This was the first time the family has been together for over five years and the occasion lent itself nicely to a family reunion.

Additional celebration on the 14th was Lois' birthday and her piece of wedding cake was served with a candle on it.

During the intermission between planes in San Francisco, former Kings Beach resident, Jeanne Davis, now of San Francisco, joined Lois for lunch at the airport. The Davis' were former owners of the Pine Cone in Kings Beach.

Out-of-State Permits Available for Hunt

SACRAMENTO — (CNS) — Deer hunters who haven't made firm plans for this fall have a rare chance to get in on some Nevada hunting, without even a drawing for the permit.

The Nevada fish and game commission conducted its annual drawing for 7235 non-resident permits on August 13, but had only 5800 applications. Only about a half-dozen areas—manly the areas around Elko County—had more applications than there were permits and required drawings.

Some of those who were eliminated in the drawing in the areas where they were needed were given their second or third choices for areas. For those who lost out on the first draw and had their second or third choice areas already filled, there still will be another chance.

Forest Land Work Continues In Area

Land clearing is still in progress on the Truckee District of the Tahoe National Forest. Two projects totaling 370 acres are near completion while another 185 acres are to be let for bid this month.

District Ranger Dave Mohla reported this is the sixth year since the Donner burn that land clearing has been done. The burned timber and brush is being pushed into piles where it will be burned this fall and planted to Ponderosa pine seedlings next spring.

The clearing is accomplished by use of large tractors equipped with "brush rakes" and dozer blades. Mohla stated the cost of the clearing represented about one half the cost of getting the plantation established. After plantation establishment, considerable money is spent on fire and insect protection until the trees are ready for harvest.
